Career Summary

Computer Science Undergraduate (BSc, ULAB — Final Semester) With A Strong Focus On AI/ML Over The Past Year, Building And Comparing Deep Learning Architectures — Including An AI-Powered Resume-Matching Platform Using BERT And RNN-Based Models, And A High-Accuracy Image Classification Study Using Transfer Learning. Professional Background Includes Prior Experience As A WordPress Developer And QA.

Career Objective

Seeking a Machine Learning Engineer internship to apply deep learning and model development skills to real-world AI systems and grow into a professional ML/AI Engineer.

Case Study & Project

- CareerLens — AI-Powered CV Analyzer Platform** (Leading AI/ML Implementation)
 - Building An AI-Driven Platform That Predicts Resume-To-Job-Description Fit, Helping Job Seekers Assess Role Compatibility And Helping Recruiters Rank Candidates.
 - Fine-Tuning A BERT-Based Model Alongside Bi-GRU, LSTM, And Bi-LSTM Architectures For The Fit-Prediction Task On An 8,000-Sample Dataset.
 - Applying SMOTE-Based Class Balancing And Stratified Data Splits To Address Overfitting And Class Imbalance From Earlier Iterations.[Github.Com/Rahatpervez/Careerlens-MI](https://github.com/Rahatpervez/Careerlens-MI)
- Cats Vs. Dogs Image Classification** — Deep Learning Model Comparison
 - Personally Implemented The Complete PyTorch Training And Evaluation Pipeline Across Five Architectures (VGG, ResNet, DenseNet, MobileNet, SimpleMLP) For Comparative Benchmarking.
 - Co-Authored A Comparative Study Achieving Up To 98.20% Test Accuracy Using VGG16 Transfer Learning.[Github.Com/Rahatpervez/Cats-Vs-Dogs-Classification](https://github.com/Rahatpervez/Cats-Vs-Dogs-Classification)
- Libertytrailcaregroup.Co.Uk** — Website Development & QA
 - Developed A Multi-Brand WordPress Website For A UK-Based Care Service Provider.
 - Conducted Functional, Responsive, And Requirement-Based Quality Testing Before Delivery.
- Shunno Art Space** — Website Development & QA
 - Built The WordPress Website For A Dhaka-Based Artist-Run Cultural Studio.
 - Verified Design Accuracy And Cross-Browser Consistency Through Quality Testing Before Launch.

Work Experience

2025 – Present

Oriture – WordPress Developer

Oct 2025 – Present

- Review UI/UX Designs Against Client Requirements And Provide Feedback Before Development.
- Develop WordPress Builds From Approved Designs And Conduct Functional, Cross-Browser, And Responsive Testing.
- A Global Design And Development Studio Serving International Clients Across FinTech, HealthTech, E-Commerce, And SaaS.

Studio Shunno (Shunno Art Space) – WordPress Developer

Jul 2025 – Sep 2025

- Developed The Organization's WordPress Website From Approved UI Designs.
- Performed Manual And Functional Testing, Verifying UI Consistency And Cross-Browser Compatibility Before Sign-Off.
- A Dhaka-Based Artist-Run Cultural Studio Fostering Community Engagement Through Art Workshops And Exhibitions.

Skills

AI/ML:	Deep Learning, CNNs, Transfer Learning, Transformers (BERT), NLP, GRU, Bi-GRU, LSTM, Bi-LSTM, Model Evaluation Metrics
Frameworks & Libraries:	PyTorch, TensorFlow, scikit-learn, Hugging Face, Pandas, NumPy
Programming & Web:	Python, Java, C, C++, HTML5, CSS3, WordPress
Platforms & Tools:	Google Colab, Kaggle Notebooks, Spyder, Git & GitHub

Education

University of Liberal Arts Bangladesh (ULAB) – CSE	Jun 2022 – Present (Expected 2026)
Relevant coursework: Artificial Intelligence, Machine Learning, Deep Learning	
Govt. Sayed Hatem Ali College – Science	2018 – 2020
